

Population Projections based on 3% per year growth

After looking at different projection options, recommendation was that North Grenville adopt a population projection based on 3% growth per year for the next 20 years

Table 1 - Population projection based on 3% per year growth

	2006 Actual	2011 Estimate	2016 Estimate	2021 Estimate	2026 Estimate	2028 Estimate
Population Projection using 3% per year	14,896	17,345	20,108	23,310	27,023	28,668

This population projection results in the following household projections.

A critical factor in projecting the number of households is incorporating decreasing number of persons per household

Table 2 - Household Projections based on 3% per year growth on population

	2006 Actual	2011 Estimate	2016 Estimate	2021 Estimate	2026 Estimate	2028 Estimate
Household projections using 3% per year	5,361	6,645	7,816	9,334	11,019	11,707
Projections of persons per household	2.77	2.61	2.57	2.5	2.45	2.45
