

Quality Management System Policy

The Water and Wastewater Department of the Municipality of North Grenville on behalf of the Municipality of North Grenville is committed to providing a consistent supply of safe drinking water. In doing so all policies and procedures prescribed by applicable legislation and regulation will be adhered to.

The Top Management Team consisting of the CAO, Director of Public Works and the Chief Superintendent of The Water and Wastewater Department as well as the employees of the

Water and Wastewater Department of the Municipality of North Grenville will strive to improve the

Quality Management System by continually reviewing, implementing, maintaining and updating the system in order to ensure it's continuing suitability and applicability to the treatment and distribution on safe drinking water to our customers
