

# WINTER SCAVENGER HUNT

Find the items listed below and checkmark the circles once you have found them.

### Cattail

Muskrats eat Common Cattails and use them to build their houses. White-tailed

Deer, Raccoons, and other animals use cattails as cover. Many species of insects eat and live on them.

### Black Capped Chickadee

During winter lives in flocks of 4-12. The chickadee is named after its call, which sounds like chick-a-dee-dee-dee.

NORTH GRENVILLE  
**TRAILS**

**North Grenville Trail Sign**  
You will find these signs around the community leading to local trails.

### Mouse Tracks

Mice are superb jumpers. Their trails commonly show a paired hopping pattern where hind prints always occur in front of closely paired fore prints.

Tail drag marks are sometimes present, creating a narrow groove down the middle of the trail.

### White-tail Deer Print

A deer's foot print is called a slot. Generally the length of an adult deer track is between 2 3/8 and 3 1/4 inches long. Tracks left by fawns are generally 1 3/8 inches long.

### White Birch Tree

Bark from the white birch is very strong and pliable and it peels off in large sheets. Canoes

are made from Birch bark.

### Tree Cavity

A tree cavity is a hole in a dead or dying tree. Wildlife use it for nesting, raising young, roosting, denning, resting, feeding, catching food, escaping predators and hibernating.

What was your favourite part of your scavenger hunt adventure?

Want to have more family fun on the trails?

Try some of these games:

- Play "Follow the Leader"
- Play "I Spy"
- Take pictures
- See what shapes are in the clouds
- Identify different types of flowers or trees
- Find the letters of the alphabet in nature
- Try to identify the different sounds you hear (and mimic them!)
