Description:

The North Grenville Fire Service, on behalf of the Municipality of North Grenville, is seeking sealed tenders from qualified vendors for the supply and delivery of one (1) new Special Service Vehicle (SUV) for municipal emergency service operations.

The vehicle will be utilized as a command, response, and support vehicle for the fire department. The unit will be used to transport firefighters, emergency response equipment, and operational supplies in support of emergency incidents, inspections, training activities, and other fire service operations throughout the municipality and surrounding areas.

The vehicle must be suitable for year-round municipal service, including winter operations, gravel roads, and rural response conditions. The unit must also be capable of supporting the installation of emergency lighting, communications equipment, and other command support equipment typically used by emergency services.

The vehicle shall be model year 2026 or newer, equipped with four-wheel drive, and powered by a gasoline engine suitable for emergency service fleet operations. The vehicle shall include a heavy-duty electrical system, modern safety features, and factory-installed equipment appropriate for municipal fleet service.

The vehicle shall be supplied in accordance with the requirements outlined in the attached specification (Appendix "A" – Vehicle Specifications and Compliance). The unit must be delivered new, complete, and fully operational at the time of delivery. Any equipment,

components, or features not specifically identified but required for the intended and safe operation of the vehicle shall be deemed included in the scope of supply.

The total tendered price shall include all costs necessary to deliver the vehicle in ready-for-service condition, including required factory options, freight, pre-delivery inspection (PDI), and any applicable dealer or administration fees. Harmonized Sales Tax (HST) shall be shown separately.

Tender submissions must be completed using the forms provided and shall be accompanied by a completed copy of the Specifications and Confirmation (Appendix “A”). The Municipality reserves the right to reject any tender that is incomplete, non-compliant, or fails to meet the minimum specification requirements.

Consideration will be given to price, compliance with specifications, confirmed delivery timeline, warranty coverage, vendor experience, and the availability of authorized warranty and service support in determining the tender that provides the best overall value to the Municipality. The lowest tender will not necessarily be accepted.

Instructions for Tenders/Quotations

- i. Tenders must be submitted both by email (PDF format) and by sealed hard copy.
 - a. Email submissions shall be provided in PDF format and sent to:
epsadmin@northgrenville.on.ca
 - b. The email subject line must clearly reference “**RFT NGFS2026-02- Special Service Vehicle**”.
 - c. Hard copy submissions shall be sealed, clearly labelled with the tender number, and delivered or mailed to:

**Municipality of North Grenville
285 County Road #44, PO Box 130
Kemptonville, ON K0G 1J0**
- ii. Carefully read all terms and conditions printed below, plus any supplementary terms and conditions which may be attached.
- iii. A completed Tender must be received at the designated email address and physical location prior to the stated closing date and time to be considered valid.
- iv. Late Tender submissions will be returned unopened.
- v. The successful bidder will be notified by the Municipality of North Grenville by means of a purchase order or other agreement applicable to the requirements being tendered.
- vi. If you do not wish to bid on this tender, please complete and return the “Notice of No Bid”.
- vii. In addition to completing the attached forms, a detailed dealer specification form shall be attached itemizing detailed equipment and options being bid. Dealer package options must clearly identify inclusions and/or exclusions to the standards option list.

General Terms and Conditions

1. Validity of Quotation/Tender

To be considered valid, this Quotation/Tender must be completed, legible and signed (in ink) and be submitted on the forms provided. If lengthy description is necessary, attach separate sheet(s) which will be considered part of the Quotation/Tender. Any attachments must be listed on the main Quotation/Tender document. Any erasure, overwriting or strikeouts must be initialled by the person signing for the bid.

Digital (email) submissions must contain a scanned or digital signature and be in PDF format. The Municipality reserves the right to request original signatures before award.

2. Acceptance, Revocation and Rejection of Quotation or Tender

The Bidder agrees that the bid is a firm bid to supply requirements specified in this document at the quoted process, and on the terms and conditions herein contained, which offer may be accepted by the Municipality of North Grenville or its designated officials in whole or in part, as specified. Late Tenders will be rejected and returned unopened. Should a Bidder wish to alter after the bid, amendments will be accepted until the designated time of bid closure.

3. Alternatives

Brands are to be as specified or an equivalent approved by the Municipality of North Grenville. When submitting bids on alternatives, supporting literature should accompany your submission wherever possible.

4. The Lowest or any Quotation/Tender not necessarily accepted

- 4.(a) The Municipality of North Grenville may, in its sole discretion, reject or retain for its consideration bids which are non-conforming because they do not contain the content of form required by this Tender or fail to comply with the submission process as set out in this Tender. If the Municipality of North Grenville, in its sole discretion, deems any items bid to be unbalanced, the bid may be deemed informal and rejected.

The Municipality of North Grenville reserves the right to award by item, or any part thereof, groups of items, or any parts thereof, or all items, and to award contracts to one or more bidders. The Municipality of North Grenville further reserves the right to reject any and all bids in whole or in part and to waive any technical defects, irregularities, and omissions if, in so doing, the best interests of the Municipality of North Grenville will be served.

- 4.(b) The Municipality of North Grenville reserves the right to consider, during the evaluation of Quotation/ Tenders:
- i. information provided in the Tender document itself;
 - ii. information provided in response to enquiries of credit and industry references set out in the Tender;
 - iii. information received in response to enquiries made by the Municipality of North Grenville of third parties apart from those disclosed in the Tender in

- relation to the reputation, reliability, experience, and capabilities of the Bidder;
- iv. the manner in which the Bidder provides services to others;
- v. the experience and qualifications of the Bidder's senior management, and project management;
- vi. the compliance of the Bidder with the Municipality of North Grenville requirements and specifications; and
- vii. innovative approaches proposed by the Bidder in the Quotation/Tender.

4.(c) The Bidder acknowledges that the Municipality of North Grenville may rely upon the criteria which the Municipality of North Grenville deems relevant, even though such criteria may not have been disclosed to the Bidder. By submitting a Tender, the Bidder acknowledges the Municipality's rights under this Section and absolutely waives any right, or cause of action against the Municipality of North Grenville and its consultants, by reason of the Municipality's failure to accept the Tender submitted by the Bidder, whether such right or cause of action arises in contract, negligence, or otherwise.

5. Price

Prices quoted by the Bidder shall include packing, packaging, delivery, unloading and installation charges, where applicable, unless otherwise specified in the Quotation/Tender and shall remain unchanged during the period stipulated in the Quotation/Tender. Prices must include all labour, materials, documentation, and any fees required to supply and deliver the vehicle in ready-for-service condition as described in Appendix A.

6. Packaging

All goods shall be packaged in standard commercial packages and/or cartons unless otherwise specified and shall be accompanied by a packing slip. All shipping containers shall carry the names of the item, size or weight, quantity, the name of the vendor, purchase offer number, tagging and shipping instructions specified.

7. Harmonized Sales Tax

Bidders must include the Harmonized Sales Tax (HST) in their bid.

8. Unit Price

All unit prices must be clearly indicated and must be extended and totalled. In the event of any conflict between unit prices and the total sum, the unit prices will be used in evaluating the bid.

9. Cash Discounts

Cash discounts offered for expeditious payment of invoices, if applicable, shall be quoted separately and the time will be measured from the date of which the goods and services are delivered, whichever is the later date.

10. Electrical Equipment

All electrically operated equipment quoted or tendered must be CSA and/or Ontario Hydro approved and bear the appropriate certification label.

11. Legal Responsible

The Bidder shall indemnify and save harmless the Corporation of the Municipality of North Grenville against all claims, actions, suits and proceeding for the infringement of any patent based upon the use of any inventions protected by such patent or for royalties or other payments which may be payable in conjunction with carrying out the work and in respect of the use of disposal by the Municipality of North Grenville or articles and supplies, furnished pursuant to a contract.

All contractors, subcontractors and suppliers to the Municipality of North Grenville shall comply with all legislation and regulations which may be applicable to this Quotation/Tender.

All work must be carried out in accordance with applicable legislation and recognized standards, including but not limited to National Fire Protection Association (NFPA) standards, Underwriters Laboratories of Canada (ULC) requirements, and all relevant federal and provincial legislation and regulations.

12. Delivery Conditions

Unless otherwise stated in the "Request for Quotation/Tender," all goods ordered in quantities specified from time to time shall be delivered to the specified destination in the Province of Ontario, in good order and free from any extra expense to the Municipality of North Grenville. Unless otherwise specified, all deliveries shall be made on a normal working day. The tenderer shall ensure strict adherence to any specified delivery schedule.

13. Quality Control

Authorized representatives of the Municipality of North Grenville shall during normal working hours, have access to the Bidders plant and premises where any part of the work is being carried out.

The Bidder shall provide assistance, test pieces and samples to carry out any requested inspections and/or appropriate tests of goods or materials.

Representative samples of the goods delivered shall be inspected by the consignee. In the event that the goods supplied do not conform to specifications, they shall be rejected and returned to the bidder, at the bidder's expense.

If latent defects are discovered after the goods have been accepted, such goods will then be rejected, and the Bidder shall replace the defective goods at the Bidder's expense. Rejected goods will be returned to the Bidder, transportation charges 'collect.' The Bidder shall replace rejected goods within a reasonable period not usually exceeding fifteen (15) working days.

14. Supplementary Terms and Conditions

Any articles hereinafter have been numbered as supplementary to the respective articles of the general policies.

These supplementary policies, where used, govern over the general policies.

Supplementary policies attached.

APPENDIX “A” – VEHICLE SPECIFICATIONS AND COMPLIANCE

Municipality of North Grenville – Fire Service (NGFS)

Supply and Delivery – One (1) Special Service Vehicle (SUV)

The bidder shall indicate compliance with each requirement listed below. Where a deviation exists, the bidder must clearly describe the deviation in the Comment column.

A1. GENERAL REQUIREMENTS

Requirement	Comply	Comment
Vehicle shall be a full-size Special Service Utility Vehicle (SUV) in the 1500-series class, designed for municipal or emergency service fleet operations. Pickup trucks, crossover SUVs, and mid-size SUVs will not be accepted.		
Vehicle shall be equipped with a factory special service or municipal fleet package intended for emergency service use and suitable for installation of emergency lighting, communications equipment, and command equipment.		
Vehicle shall be new, unused, and current production.		
Model year shall be 2026 or newer		
Vehicle shall be configured without a third-row seating position to provide cargo capacity for emergency equipment.		
Vehicle shall be suitable for fire department command, response, inspection, and operational support activities		
Vehicle shall be capable of year-round municipal service including winter conditions and rural roadways		
Vehicle shall be capable of supporting the installation of emergency lighting, siren systems, communications equipment, and other command equipment by a municipal upfitter.		
Vehicle shall be delivered fully assembled, operational, and ready for service		
Vehicle shall include all factory-installed equipment required for normal operation and safe use even if not specifically listed in this specification.		

A2. REGULATORY COMPLIANCE

Requirement	Comply	Comment
Vehicle shall comply with the Canada Motor Vehicle Safety Standards (CMVSS)		
Vehicle shall comply with Ontario Highway Traffic Act requirements		
Vehicle shall meet all Transport Canada certification requirements		
Vehicle shall bear the National Safety Mark certification		
Vehicle shall display all GVWR and GAWR certification labels		
Vehicle shall comply with all applicable Canadian emissions regulations for gasoline powered light duty vehicles.		
Vehicle electrical systems and components shall comply with applicable CSA or equivalent Canadian electrical safety standards where required.		

A3. VEHICLE CONFIGURATION

Requirement	Comply	Comment
Vehicle shall be a four-door full-size sport utility vehicle configuration.		
Vehicle shall be equipped with four-wheel drive (4x4) suitable for year-round municipal operations.		
Vehicle shall provide seating for five occupants.		
Vehicle shall be equipped with two front bucket seats. A front center seating position or front bench seat configuration will not be accepted.		
Front seating configuration shall provide open floor space between the driver and passenger seats suitable for installation of a communications console or emergency service equipment.		
Vehicle shall not include a third-row seating position in order to maximize cargo space for emergency equipment.		
Vehicle shall include a rear cargo area suitable for storage and transport of emergency response equipment.		
Preference may be given to vehicles that provide a rear cargo area designed to be separated from the passenger compartment or suitable for installation of a sealed or partitioned cargo barrier for equipment decontamination purposes.		

Rear cargo area shall be accessible through a rear liftgate or equivalent rear access door.		
Vehicle exterior colour shall be factory white.		
Vehicle configuration shall be suitable for municipal fleet service and emergency response operations.		

A4. INTERIOR FEATURES, SAFETY SYSTEMS, AND DRIVER INTERFACE

Requirement	Comply	Comment
Vehicle shall include frontal airbags for driver and front passenger, seat-mounted side airbags, and curtain airbags for all outboard seating positions		
Vehicle shall include multi-zone automatic climate control including rear passenger climate control		
Vehicle shall include assist handles for front and rear passenger access		
Vehicle shall include factory infotainment system with large color touchscreen display and integrated navigation capability (Apple CarPlay and/or Android Auto considered acceptable)		
Vehicle shall include Bluetooth connectivity for hands-free phone operation		
Vehicle shall include Apple CarPlay and Android Auto smartphone integration through the factory infotainment system.		
Vehicle shall include onboard wireless internet hotspot capability through vehicle connectivity system		
Vehicle shall include digital driver information center displaying vehicle operating data including speed, engine hours, idle hours, fuel level, oil pressure, and system status		
Vehicle flooring shall be heavy-duty rubberized or vinyl flooring suitable for emergency service use		
Vehicle shall include multi-camera exterior vision system providing parking and maneuvering assistance		
Vehicle shall include rear park assist system with audible or visual alerts		
Vehicle shall include rear pedestrian alert system		
Vehicle shall include forward collision warning system and automatic emergency braking		

Vehicle shall include lane keeping assist with lane departure warning		
Vehicle shall include blind spot monitoring or equivalent driver assistance system		
Vehicle shall include front pedestrian and cyclist detection braking system		
Vehicle shall include intersection collision mitigation braking system		
Vehicle shall include digital rear camera mirror or equivalent enhanced rear visibility system		
Vehicle shall include keyless entry and push-button start system		
Vehicle shall include protected idle capability allowing the engine to idle while the vehicle remains secured		
Vehicle shall include power door locks with lockout protection		
Vehicle shall include power windows with express up and down functionality for front windows		
Vehicle shall include remote keyless entry with minimum two programmed keys		
Vehicle shall include power outlets including minimum two 120-volt outlets located in cabin and cargo area		
Vehicle shall include USB charging ports in front passenger area		
Vehicle shall include locking glove box and overhead console with interior lighting		
Vehicle shall include interior dome lighting and cargo area lighting		
Vehicle shall include deep-tinted rear privacy glass for rear passenger and cargo areas		
Vehicle shall include factory wiring provision for installation of communication equipment including microphone location near driver position		
Vehicle shall include steering wheel controls for cruise control, driver information center, and vehicle audio system		
Steering wheel controls shall include programmable buttons capable of operating customer-installed equipment		
Vehicle shall include tilt and telescoping steering column		
Vehicle shall include rear split-folding bench seat with vinyl seating surface suitable for emergency service use		
Vehicle shall include front seating configuration with power driver and passenger seat adjustment		

A5. EXTERIOR FEATURES

Requirement	Comply	Comment
Vehicle shall include exterior assist steps mounted between the front and rear wheels		
Vehicle shall include capless fuel filling system or equivalent refueling system		
Vehicle shall include rear window electric defogger		
Exterior door handles shall be body colour		
Vehicle shall include power door locks with programmable locking functions and remote key entry		
Vehicle lighting system shall include headlamp and taillamp flasher provisions suitable for emergency warning lighting installation		
Vehicle shall include LED headlamps with automatic exterior lamp control and daytime running lamps		
Exterior mirrors shall be heated, power adjustable, and manual folding		
Vehicle antenna shall be integrated within the vehicle body or roof structure		
Vehicle shall include rear liftgate with separate lift glass for cargo access		
Vehicle shall be equipped with all-terrain tires suitable for year-round municipal service		
Tire size shall be approximately 265/65R18 or manufacturer equivalent		
Vehicle shall include tire pressure monitoring system		
Vehicle shall include full-size spare tire mounted under the vehicle frame		
Vehicle shall include aluminum wheels approximately 18-inch diameter		
Windshield wipers shall include intermittent and rain-sensing capability		
Vehicle shall include rear window wiper with washer system		
Vehicle shall include front frame-mounted recovery hooks suitable for vehicle recovery operations.		
Vehicle shall include molded splash guards or equivalent wheel well protection.		
Vehicle shall include exterior mirror integrated turn signal indicators or equivalent safety feature.		

A6. ELECTRICAL SYSTEM AND UPFITTER PROVISIONS

Requirement	Comply	Comment
Vehicle shall include heavy-duty electrical system suitable for emergency service equipment installation		
Vehicle shall include auxiliary electrical circuits accessible in the front cabin area for installation of emergency service equipment		
Vehicle shall include auxiliary electrical circuits accessible in the rear cargo area for installation of emergency service equipment.		
Auxiliary electrical circuits shall be capable of operating on either ignition-controlled power or direct battery power.		
Vehicle shall include centralized upfitter wiring harnesses with wiring leads for connection of emergency service equipment.		
Upfitter wiring harnesses shall be accessible in both the front cabin area and rear cargo area.		
Upfitter wiring circuits shall be clearly identified and labeled to facilitate installation of emergency equipment.		
Vehicle shall include factory wiring provisions suitable for installation of emergency warning lighting systems.		
Wiring provisions shall include connection points located near the front lighting area, exterior mirrors, and rear window or liftgate area.		
Vehicle shall include protection features to prevent accidental lockout when keys are inside the vehicle.		
Vendor shall provide electrical schematics or documentation identifying all upfitter circuits and connection points supplied with the vehicle.		

A7. MECHANICAL AND POWERTRAIN SYSTEMS

Requirement	Comply	Comment
Vehicle shall include active hill hold assist or equivalent system to prevent rollback during vehicle start on inclines		
Vehicle shall include high-capacity engine air filtration system suitable for fleet and emergency service use.		
Vehicle shall include heavy-duty alternator rated approximately 250 amps suitable for emergency service electrical loads		
Vehicle shall include dual battery system consisting of a primary starting battery and auxiliary battery for emergency equipment		

Vehicle shall include battery isolation system allowing auxiliary battery charging while protecting the primary battery from discharge		
Vehicle shall include four-wheel disc braking system with four-wheel anti-lock braking system (ABS)		
Vehicle shall include heavy-duty engine cooling system suitable for extended idle and emergency service operation		
Vehicle shall be equipped with a gasoline powered V8 engine		
Engine shall produce a minimum of 350 horsepower		
Engine shall produce a minimum of 380 lb-ft of torque		
Turbocharged or hybrid powertrains will not be accepted		
Fuel tank capacity shall be minimum 90 litres (approximately 24 gallons)		
Vehicle shall include mechanical jack and tire service tools		
Vehicle shall include heavy-duty limited slip rear differential suitable for emergency service operation		
Vehicle shall include front underbody skid plate protection		
Vehicle shall include electronic stability control system		
Vehicle shall include fully independent suspension system suitable for emergency fleet operations		
Vehicle shall include trailer towing equipment including Class IV receiver hitch or equivalent		
Vehicle shall have a minimum towing capacity of approximately 7,500 pounds (3,400 kg)		
Vehicle shall include electronic transfer case suitable for four-wheel drive operation		
Vehicle shall include automatic transmission with minimum ten forward speeds		
Vehicle shall include transmission oil cooling system suitable for towing and emergency service operation		
Vehicle rear axle ratio shall be suitable for towing and fleet service operations		

A8. WARRANTY AND SERVICE REQUIREMENTS

Requirement	Comply	Comment
Vehicle shall include manufacturer's standard new vehicle warranty.		
Vehicle shall include minimum 3-year / 60,000 km bumper-to-bumper warranty or manufacturer equivalent.		
Vehicle shall include minimum 5-year / 100,000 km powertrain warranty or manufacturer equivalent.		
Warranty coverage shall include all factory-installed components and systems supplied with the vehicle.		
Warranty shall commence at the time of delivery to the Municipality.		
Vendor shall provide documentation outlining all warranty coverage and limitations.		
Vendor shall identify the nearest authorized service facility capable of performing warranty repairs.		
Warranty service shall be available within a reasonable distance of the Municipality of North Grenville.		
Vendor shall provide contact information for warranty service and technical support.		

A9. DELIVERY REQUIREMENTS

Requirement	Comply	Comment
Vehicle shall be delivered fully assembled, operational, and ready for service.		
Delivery shall be made to the Municipality of North Grenville, 259 County Road 44, Kemptville, Ontario, or another municipal facility as directed (within municipality).		
Vehicle shall be delivered with a full tank of fuel and all fluids at proper operating levels.		
Vehicle shall be free from defects, damage, or cosmetic issues at the time of delivery.		
Vendor shall provide an estimated delivery timeline at the time of tender submission.		
Vendor shall notify the Municipality at least five (5) business days prior to delivery.		
Vendor shall coordinate delivery with the Municipality to ensure appropriate staff are available for inspection and acceptance.		
Any deficiencies identified during delivery inspection shall be corrected by the vendor at no additional cost to the Municipality.		

A10. DOCUMENTATION AND MANUALS

Requirement	Comply	Comment
Vendor shall provide complete owner's manuals and operator documentation for the vehicle.		
Vendor shall provide service and maintenance documentation applicable to the vehicle supplied.		
Vendor shall provide electrical schematics or wiring documentation related to upfitter circuits supplied with the vehicle.		
Documentation may be provided in printed or digital format.		
Vendor shall provide documentation outlining warranty coverage and service procedures.
