

Municipality of North Grenville Transportation Master Plan Notice of Study Commencement

The Study

The Municipality of North Grenville has initiated the development of a Transportation Master Plan (TMP) to guide short-, medium-, and long-term transportation infrastructure improvements. The TMP will establish the Municipality's strategic directions to meet the long-term development needs of the transportation network as North Grenville accommodates mobility for future growth. As one of the fastest growing municipalities in Eastern Ontario, North Grenville is committed to providing a broad range of amenities and services to its residents and visitors.

The TMP will examine existing issues and identify opportunities in North Grenville's transportation network, as well as alternative solutions. Recommendations arising from the study will guide future transportation initiatives and infrastructure improvement priorities for motorized vehicles, as well as commuter cycling facilities.

The TMP will be undertaken in accordance with the requirements of Phases 1 and 2 of the Municipal Class Environmental Assessment (EA) Process (October 2000, as amended in 2007, 2011 and 2015), which is an approved process under the *Ontario Environmental Assessment Act*.

Your input is important to us!

Public engagement is an integral component in preparing the TMP and will assist in identifying community needs and transportation priorities. Members of the public are encouraged to participate in the TMP process through planned engagement activities and events, or by contacting the study team directly with information, comments, or questions. The following engagement activities and events are planned as part of the TMP process:

Public Engagement Opportunity	Anticipated Date
Online Survey	Spring 2018
Public Information Centre	Summer 2018

At the time of the online survey launch, a link will be published and advertised on the Municipality of North Grenville's website at www.northgrenville.ca. A Notice of Public Information Centre will be published in local newspapers and on the website once the date and location for the event has been set. The project website will be updated on a regular basis to provide information on the current status of the study.

For further information on the TMP, to submit comments or questions, or to be added to the study mailing list, please visit the project website at www.northgrenville.ca or contact:
